Subject: Proposal for SaaS Based Human Resource Information System for Billal Trading Corporation.

Dear Sir,

Shomvob Technologies Limited, a leading provider of cloud-based HR and Payroll solutions, is pleased to offer a SaaS Based Human Resource Information System (HRIS) solution. Since 2024, we've helped over 25+ organizations streamline HR operations with secure and scalable technology.

Solution Overview

Following our meeting on August 09, we are excited to propose a fully managed, cloud-based HRIS solution for Billal Trading Corporation. Our SaaS HRIS system is designed for seamless access from anywhere, minimizing IT infrastructure requirements while ensuring robust, secure, and real-time access to your HR and payroll data.

Effortlessly manage leave, attendance, and employee information.

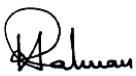

No Upfront Costs & Scalable Solution

As a SaaS offering, our HRIS solution is hosted on the cloud, meaning there are no upfront costs for hardware or infrastructure. You only pay for what you use, with predictable subscription fees. This model ensures scalability as your organization grows, with the flexibility to add or reduce features based on your evolving needs.

Ongoing Support & Updates

With Shomvob SaaS HRIS, you benefit from continuous system updates and feature enhancements, ensuring that your organization always has access to the latest tools and capabilities without additional effort or cost. Our dedicated support team is available to assist with any queries or issues, ensuring smooth operation of the system.

We are thrilled at the opportunity to partner with Billal Trading Corporation and help optimize your HR operations with our cutting-edge technology. Please reach out for further details or any clarifications you may need.

PROPOSAL — SHOMVOB HR MANAGEMENT

Built Around How You Work

Prepared for: **Billal Trading Corporation** Date: **09 August, 2026** Valid for: **30 days**

Shomvob HR brings your selected modules together into one connected system for Billal Trading Corporation — designed to work as a whole, not as separate tools bolted on afterward. Data entered once in any module flows automatically through approvals, reporting, and payroll, so information never needs to be re-entered by hand. The modules below reflect what's most relevant to your team today, with room to add more as you grow.

Module Highlights

Employee Management

- Central employee directory with full profile history
- Bulk upload for onboarding new hires in one pass
- Probation tracking with automatic confirmation alerts
- Department- and branch-scoped access for managers

Attendance

- Daily attendance overview across the full team
- Forget-attendance & late-waiver requests, approved in one place
- Remote and work-from-home attendance tracked the same way
- Date-range & monthly reports, ready for payroll

Leave Management

- Configurable leave types & policies per employee group
- Holiday calendar and bonus leave configuration
- Approval center for managers, on web or mobile
- Leave history reports for every employee

Device Integration

- Biometric face or fingerprint clock-in/out
- Automatic sync into the Attendance module
- No manual sign-in sheet or register involved
- Tamper-resistant attendance record

Roster & Scheduling

- Shift scheduling by team or department
- Capacity overview and capacity planning
- Working-hour patterns, time slots, and week setup
- Groups for floor, warehouse, or office staff

Payroll

- Payroll dashboard, drafts, and payslip history
- Bonus types, policies, and off-cycle bonus runs
- Attendance and leave feed directly into each cycle
- Outstanding salary tracked until it's paid
