THE CASE FOR CHANGE

HR challenges of a growing multi-brand organization

As 300 Ltd grows, disconnected processes make visibility, consistency, and timely decisions harder.

SIX CONNECTED OPERATIONAL CONCERNS

WHAT HR SEES TODAY

Growth is exposing the gaps.

Shomvob HR

01

No real-time attendance visibility

HR lacks one live view of attendance across the workforce.

02

Blue-collar workforce needs

The employee experience must be simple, mobile, and Bangla-first.

03

Leave across branches

Requests and approvals are difficult to manage consistently.

04

Attendance and payroll are linked

Manual handoffs create delays and increase payroll risk.

05

Limited workforce insights

Important patterns stay hidden without connected HR data.

06

Limited management visibility

Leaders need a clear, decision-ready view of workforce activity.
